Re Chicago teletype dated 1/28/87.

Pursuant to the provisions of both the Attorney General's Memorandum of November 7, 1983, to the Heads and Inspectors General of Executive Departments and Agencies, entitled "Procedures for Lawful, Warrantless Interceptions of Verbal Communications" and Attorney General Order Number 985-82, captioned "Delegation of Authority to Authorize Television Surveillance," authorization was granted on [redacted] for the use of transmitting and/or recording devices, to include video recording equipment, as described in referenced communication. You are to submit an FD-621 within 30 days of the expiration of this authorization furnishing information regarding use of this equipment in accordance with MIOG, Part II, Section 10-10.3(9).

In the event a renewal of this authority is deemed warranted, submit your request with full justification at least seven days prior to the expiration of the existing authority, in compliance with MIOG, Part II, Section 10-10.3(9).

ACTION MEMORANDUM

Enclosed is a copy of a communication in which authorization is requested for the continued use of electronic devices (both audio and video (CCTV)) to monitor and record private non-telephonic conversations, with the consent of a party, in captioned investigation. Also enclosed is a copy of the communication in which authorization was initially requested and granted.

Dear Mr. Valukas:

This letter will confirm a conversation between Special Agent (SA) [redacted] and Assistant United States Attorney (AUSA) [redacted] on November 12, 1987 wherein the AUSA concurred with the use of a recording device by the captioned individual to monitor/and/or record private conversation with subject(s) Fred Roti and others as yet unknown in connection with an investigation by this office.

The AUSA was satisfied that the investigative techniques and investigative strategy discussed to date did not create a viable entrapment defense.

This letter is to confirm a conversation between Special Agent (SA) [redacted] of the Federal Bureau of Investigation (FBI) and Assistant United States Attorney (AUSA) [redacted] on June 21, 1989, concerning the continued use of consensual monitoring equipment in the above captioned matter. As part of the investigation a mini-nagra body recorder (serial # 255630) was installed on the CW to record the conversation. Subsequent review of the recording determined that the body recorder had malfunctioned and only partial conversation was recorded.

On 7/3/89, an inspection of the above recorder by a Chicago Division technical unit Special Agent determined that the malfunction was caused by both loose and missing set screws attaching the microphones and remote switch to the recorder.

The microphones and cables were placed in a 1A envelope for possible further review.
